

Exerciþiul 1

```
import java.util.Scanner;
public class Main{
    public static void main(String []args){

        Scanner sc = new Scanner(System.in);
        int n;
        int count = 0, sum = 0;
        while (true){
            System.out.println("Introduceþi numrul: ");
            n = sc.nextInt();
            sum = sum + n;
            if(sum>1000){
                sum = sum - n;
                break;
            }
            count++;
        }
        System.out.println("Media aritmetic este: " + sum/count);
        sc.close();
    }
}
```

Exerciþiul 2

```
public class Main{
    public static void main(String []args){

        for(int i = 5; i>=1; i--) {
            for(int j = 1; j<=i; j++) {
                System.out.printf("%2d", i);
            }
            System.out.println();
        }
    }
}
```

Exerciþul 3

```
import java.util.Scanner;
public class Main{
    public static void main(String []args){

        Scanner sc = new Scanner(System.in);
        System.out.println("Introduceti n:");
        int n = sc.nextInt();
        int s1 = 0, s2 = 0, i = 1, z = 0;

        do{
            s1 = s1 + (int) Math.pow(i,3);
            z = z + i;
            i++;
        }while(i<=n);
        s2 = s2 + (int) Math.pow(z,2);

        System.out.println ("Suma 1: "+s1);
        System.out.println ("Suma 2: "+s2);

        if (s1<s2){
            System.out.println ("Suma 1: "+ s2 +" este mai mare ca suma 2: " + s1);
        }else if (s1>s2){
            System.out.println ("Suma 1: "+ s1 +" este mai mare ca suma 2: " + s2);
        }else{
            System.out.println ("Suma 1: "+ s2 +" este egală cu suma 2: " + s1);
        }
        sc.close();
    }
}
```
